**Family Resource Centre National Forum are calling for a Yes Yes vote!**

23.02.24 February 2024

The [Family Resource Centre \(FRC\) National Forum \(FRCNF\)](#), the national representative body for the 121 Family Resource Centres (FRCs) in Ireland, has joined [Vote Yes Yes - Family and Care Referendums](#) coalition of organisations campaigning for Yes vote in both the Family and Care referendums on March 8<sup>th</sup>.

Fergal Landy, CEO of the FRCNF said:

“We feel it is important that there is a yes vote in both family and care referendums. A Yes Yes will represent a significant improvement in how the Constitution addresses Family and Care and is aligned to our vision, mission, and values and is part of our long-term commitment to a social change and equality agenda. Anything other than that will represent a significant set back for the progressive work of Family Resource Centres and for the children, families, individuals, and communities we work with.”

Jackie Landers, Chairperson of the Family Resource Centre National Forum said:

“The FRC National Programme is Ireland’s largest human rights based, community development and family support programme operating across the life-course and the work of FRCs supports, and empowers many children, families, individuals, and communities for whom the existing wording of the Constitution does a disservice. As part of our commitment to their inclusion and human rights, we are calling for a Yes Yes vote!”

Family Resource Centres will be participating and facilitating events locally, regionally, and nationally as part of the Yes Yes campaign over the coming weeks and welcome communities to get engaged and involved in the campaign.
